Alchemist Collection by etc.etc.

Introducing the Alchemist collection - a series of sophisticated sofas, armchairs and poufs, that exude timeless elegance. Melding modernist design with traditional Japanese structures, this collection is a masterpiece of balance and proportion, boasting clean lines that are both minimal and refined.

Momoko Side Tables by etc.etc.

Inspired by Japanese architecture and Torii gates that symbolise a transition from mundane to sacred and Nordic design principles, the design culminates in a raw but soft Momoko shape.

The side table comes in a beautiful array of colours, from classic oak and playful terracotta to subtle cashmere cream and ash grey anthracite, as well as four shapes. It is a perfect accompaniment for drinking coffee, sharing snacks, reading books or even storing magazines in a waiting room – matching each unique spirit of a different home. Choose your Momoko table to side with.

I Piccolini Wooden Animal Figures by Viviana Degrandi

The I Piccolini collection was born from love of nature and wild animals. Each animal represents a different natural habitat, such as Antarctica, the Arctic Sea, the African savannah, and others.

They all started as a harmonious composition of geometric shapes, beginning with the sphere and ending with a focus on formal simplicity. The animals are made using hardwood and hardwood scraps, giving them unique colours, patterns, and textures, so no animal is the same. The use of sustainable design practices not only reflects the need to protect the environment we live in but also serves as a reminder that things can be beautiful and sustainable.

Anunnaki Scented Candle by EMKO

Made from natural soy wax of European origin and filled with pleasant scent of nature: black plum and rhubarb. Experience the fusion of tradition and modern design. Our ceramic cups are meticulously crafted using an ancient pottery wheel technique, resulting in a rustic, clay-textured exterior and smooth, glazed interior.

Naïve Pouf by etc.etc.

Smooth lines and well balanced proportions are the main features of the Naïve pouf. This cupcake silhouette pouf is a perfect companion for our Naïve sofa. Nevertheless, the pouf fits well in a hallway or can bring a comfy feeling to a dressing room or lounge.

Naïve pouf is available in two sizes and the same fabrics as Naïve Sofa — from soft velour to cozy boucle or natural leather.

Naïve Sofa by etc.etc.

The Naïve Sofa is the softest addition to continually growing Naïve furniture collection. This delightful piece is designed to accommodate up to three people and contributes to a favourable microclimate of any room it is placed in.

Flawless elegance works well for private as well as public interiors, creating an inviting space to unwind. What's more - the sofa effortlessly combines with different seating furniture.

Multifunctional Pill Extra is a perfect workplace that fits a 27" screen. It also has a functional tabletop and JUNG electric sockets. Moreover, secret storage compartments help quickly hide work clutter, making this piece a must for smaller spaces.

Multifunctional Pill by Dalius Razauskas

The Multifunctional Pill works great in the treatment against clutter and messy environments. The Pill is a round cabinet that works fixed to a wall and can instantly transform into a fully-functional working place, a dressing table, or even a bar! Attach it at standard table height, a bit higher or a bit lower – it's your choice. The shelving system inside is designed with the idea to allow the user to change and adapt it easily: it can fit a laptop, standard files, catalogues, books or any other personal belongings.

Furthermore, the Pill comes equipped with sockets and the option of integrating LED lights. The materials and the fittings used into manufacturing are providing a reliable desk transformation and tabletop stability.

Naïve Semi Bar Stool by etc.etc.

The Naïve semi bar stools stand out with their unique and recognizable character. A carved seat with a minimal backrest makes it comfortable enough for a long chat between friends, while durable steel footrest suits both home and public use.

Multifunctional Pill Extra by Dalius Razauskas

Multifunctional Pill Extra is an upgrade of our bestseller wall cabinet Pill. The idea came from our beloved design seekers asking about the solution for bigger screens — a computer or even TV.

The wall cabinet is available in black or white base combined with soft yellow, sky blue, black or white doors.

Bean Sofa

Bean modular sofa combines simple design with functionality. Due to its rounded corners, it is easy to join the segments and form a lounge of two, three, or more seats. Meanwhile, a pouf works well on its own or as an extension for your sofa.

Elegant wooden legs also add some lightness to a bit chubby base and ease the floor cleaning. Finally, pleated velour fabric brings a bohemian feel and is extremely soft to touch.

Bean sofa comes in five colors. Choose from royal blue, moss green, burgundy red, concrete grey, or always stylish beige. There also are two cushions that ensure the best comfort.

Lietuva Rug by Whynot Design Studio

The Whynot design team has created the Lietuva Rug after being inspired by the Lithuanian identity – its ancient traditions, its colours, clothing and handicraft. One of the unique Lithuanian craft elements is the colourful woven stripe once used in the national costumes. Different yarns are interwoven together and create geometric patterns, while the stylized flowers are ending in elegant colour combinations. In the rug, these artistic signs are used next to the contemporary modern linen craftwork, bringing together a touch of the Lithuanian spirit. Lietuva is available in different colours which define the Lithuanian nature: the blues of the lakes and winter frost; the light greys reflecting the sky; the greens of its woods contrasting with wild sand dunes. A reflection of Lithuania portrayed in the Lietuva Rug.

Chaos Rug by Audronė Drungilaitė

The very best parties usually leave us with a chaos and confetti on the floor. And like the great memories we get from such celebrations, the Chaos Rug will bring joy and happiness into your daily life. Yet the item is made out of the rug industry's leftover yarn. The base of this linen rug is hand-tufted with one-colour yarns, then the weaver selects the rest of the details from the leftovers.

Every single rug is therefore uniquely coloured and made from 100% linen that has hypoallergenic features. Available in two sizes (2x2 m and 2.5 x 2.5 m) and two different background colours (dark blue and caramel brown).

The rug has been shortlisted for the Dezeen Awards 2020 and Make Me! competition Finale.

Naïve Dining Table

by etc.etc.

Table's modest and clean form is decided by a simple but lasting construction - each leg has its own base under the tabletop making the table strong enough to serve generations to come. The roundish tabletop contour is designed to create an inviting and cozy atmosphere for everyone sitting around it.

The table is available fully oiled or with a colored body revealing just the oiled ash tabletop surface.

Naïve Stool

by etc.etc.

The smallest member of the Naïve family. A tiny but sturdy item that will find itself useful in many spaces and situations. Assembled out of a carved solid ash seat and three legs to screw.

Macaron Pendant Lamp

by Silvia Ceñal

Macaron lamp is combining simple materials with the right proportions, in order to get a lamp with personality. Wood conveys us warmth and strength. Along with the cord which links between the two pieces of wood, giving a touch of originality with its texture and color. It happens quite the same when it comes the Macaron with different flavors combining perfectly in it.

Naïve Low Chair

by etc.etc.

Naïve Low Chair introduces itself with a bright, yet mature and subtle look. Its main visual characteristic is a large leather strap that holds the backrest attached to the body. Firm connection between wood, leather and textile serves its function and makes it visually distinctive. After a long day Naïve Low is inviting for a cup of coffee or tea, have a relaxing read, or small adventure while watching a movie. It is a companion which values your time and sitting quality, thus, Naïve Low is the chair to live with. It is composed of long-lasting natural materials and suits organically to every background.

Like other pieces in
this family, Naïve Low
Chair features a body
that can be easily
unscrewed and
flat-packed.

Naïve Side Table by etc.etc.

The Naïve Side Table is available in three sizes, each one carved out of a single piece of solid ash. A form in between a square and a circle creates a soft and welcoming appearance and will easily adapt to any type of room. The tables can easily be assembled just by screwing the legs in, and they work well on their own, or with all three together.

Babel Serving Stand by ZP Studio

The tiered Babel Serving Stand is a composition of two scooped wooden plates and a central pole combined with a solid brass handle. All three parts are made with precision from solid ash, and the plates are oiled with oil which is certified for contact with food. The plates can be easily removed and used separately, and then again mounted back onto the central pole to create a stylish two-tier serving stand for fruits, nuts, cakes, and more. For all the cupcake lovers we recommend to flip over the plates to have the flat surface.

Naïve Chair by etc.etc.

This playful chair is stripped to the minimum: a carved solid ash seat and six legs of equal length to screw. It takes pitch-perfect accuracy to design its simple looks. Every single detail is carefully studied, the length and angles of the legs are engineered to obtain the best proportions and to offer superior ergonomics and a great sitting position. It takes a minute to assemble it, and another one to flat-pack it back into a small box for transportation or shipping.

4.9 Desk by Marius Valaitis

The unusual name of the 4.9 Desk has a story to tell: it reflects designer's Marius Valaitis desire to play with the concepts of perfection vs. flaw. For that it's almost five, missing just a tiny bit. This translates in the angles of the desktop, which, at its end, has a "crack", a slit not just for storage, but also to bring closure to the desk's core idea. The "imperfection" aside, all the details of this piece of furniture have been made with perfect accuracy. It not only brings convenience and efficiency to work, but adds a little bit of style to it as well.

Inclined seat and sturdy construction ensure the best comfort for whatever you are immersing into — from family gatherings at home to sophisticated dinners at the restaurant.

Citizen Chair | Chaos Rug | Babel Serving Stand

Citizen Chair by etc.etc.

Citizen is a minimal dining chair with subtle details emphasizing its construction. The chair features rounded legs that offset from a square seat. Each leg casts a soft shadow on the body and renders a balanced posture of the chair. Effortless Citizen chair is crafted from sustainable, natural materials — solid oak and veneered plywood. Moreover, light and elegant Citizen chairs are easy to stack, allowing to quickly transform the space or store the chairs when not in use.

The best part? The Citizen chair proposes two different backrests that give birth to two unique characters. As citizens may be good or bad, you can choose your side — square or round backrest chair in natural either black painted oak. Both these characters harmoniously mix and complement each other around a dining table, prompting the artistic atmosphere of the room.

The table is crafted from sustainable, natural materials — solid oak and veneered plywood so perfectly matches our stackable laconic Citizen Chair.

Torch Hook by Tore Bleuzé

Just like a medieval torch, Torch Hook metal bracket is attached to the wall and wooden pin is easily stick in. It is an item of simple yet clever design. You can hang the clothes, jackets or scarves on the wooden pin and place a coat hanger behind it on the specially shaped bracket. The Torch is made of ash wood and powder coated metal, sold in pairs and available in four different colours.

Torch Hook is definitely an eye-catcher on the wall of your own cosy castle.

Citizen Dining Table by etc.etc.

An elegant and clear design language is the main feature of the new Citizen dining table. Uncovered round legs here expose the clean structure of the table and highlight the beauty of wooden texture.

Designed to enjoy a memorable time with our loved ones, Citizen is a highly versatile piece. It is available in three sizes — square as well as smaller or larger rectangular. This way, the table fits various purposes and interiors — from compact apartments to spacious restaurants or hotels.

Hoya Chair

by Luigi Cittadini

The inspiration behind the Hoya Chair comes from plants — their growth, development, and the opening of large, reassuring, and enveloping leaves.

Hoya chair consists of a black metal frame and veneered plywood backrest and seat, available in three finishes — natural oil, black or walnut paint. Compact Hoya chairs are also stackable and come in a flat pack, this way being sustainable in terms of transportation and packaging, too.

Aye Aye! Candleholder by etc.etc.

Aye Aye! is a fleet of rugged, round and bold iron cast candle holders inspired by the time of adventure and discovery, when the enthusiasm of the Industrial Revolution revealed the world to travellers and fortune seekers. The fleet is composed of four sizes – from a small tugboat with one funnel to a hefty steamship with four big ones. Each funnel is designed to fit either a tea-light candle for cosy harbour light or a taper candle as a pillar of steam.

Scattered on a dining table the vessels will seem to sail into an archipelago of plates sparkling good mood for conversation.

7.1 Chair by Nikita Bukoros

The 7.1 chair by Ukrainian designer Nikita Bukoros is a traditional look sturdy dining chair. It well fits both — your personal dining ritual at home or sophisticated dinner at the restaurant. A spoon-like backrest holder made from casted and polished brass is a distinctive feature of the 7.1 chair. It also refers to family traditions and cozy stories shared around the table.

Moreover, 7.1 is the volume of a dessert spoon in the imperial Apothecaries system and the inspiration behind this chair. Just like dessert is the final chord of a great dinner, the 7.1 chair is the cherry on top of the modern interior.

Four versions of the chair are available. Choose lacquered oak with beige woven upholstery or beige velour, either black painted oak with moss green velour or coal black woven upholstery.

Mirror Dew by Rasa Balaišė

Inspired by such dewdrops, designer created a mirror named Dew, which is a chic tribute to the phenomenon's reflective yet aesthetic qualities. Available in three sizes, Dew can be bronze, dark grey or classical, without colour. It also has its own four little "droplets" acting as functional details: you can place these bubble-shaped glass accessories on the lower surface – they are able to hold light jewellery, at the same time matching the chosen colour scheme. Just like real dewdrops, the mirror contains both otherworldly charm and crystal clear function.

Naïve Bench by etc.etc.

Made from solid wood, the Naïve Bench Seat is as strong as it is visually gracious. The item can be made in two sizes, also with or without the padding that comes in the eight colours of the Naïve Low Chair. If unpadded, the bench seat is either black or oiled ash wood. And like the other pieces in this family, it's genuinely easy to assemble as well as effortlessly adaptable to any room.

Naïve Tray by etc.etc.

The Naïve Tray comes in the colour of ash wood and in a single size. The tray is truly distinctive due to its pleasant appearance, the ability to adapt to any space, and the highest certified quality of the oil used on it.

Spiedino Lamp by Whynot

Spiedino — which in Italian means skewer — is a name chosen for the visual similarity of elements strung along a single axis. It also recalls the Italian vibe and tradition, famous for art, food, handicrafts, and design.

The eye-catching Spiedino Pendant Lamp is, in fact, designed in Italy by Whynot design studio and is the result of a rhythmic game between simple yet balanced shapes. Crafted from high-quality materials — solid ash and fabric — Spiedino Lamp focuses not only on the aesthetics and beauty of the item but also on its sustainability and circularity.

Spring Mattresses by EMKO

EMKO continues our best tradition of introducing exceptional quality items to ease and refresh everyday life of our customers. EMKO mattresses are designed to be the best choice for the night rest bringing restorative sleep. There are three comfort levels depending on the lifestyle and preferences of the customer. All three are covered with sustainable, antibacterial textile. Removable and washable cover.

Step Up Shoe Rack by Tore Bleuzé

Such simple solution to store shoes and always have them in sight, designed by Tore Bleuzé, feels so obvious and natural that it's almost strange it hasn't been used before. All you need to do is gently put Step Up against a wall and it will do the job. It doesn't take a lot of space and it can easily be relocated. The smaller version of this shoe rack, the Step Up Mini, has been welcomed into the EMKO range as well. Used by itself for smaller shoes or smaller spaces, or in combination with its "bigger brother", the Step Up family can now fit everyone's needs.

Macaron Wall Lamp by Silvia Ceñal

On demand

Being the youngest member of the Macaron family, Macaron Wall Lamp combines simple materials with the right proportions to get a lamp with a personality. Available in two sizes, five colours and suitable to fix in two positions - up and down.

Macaron Floor Lamp by Silvia Ceñal

On demand

Silvia Ceñal was inspired by a sweet meringue based confection made with simple ingredients like eggs, icing sugar, granulated sugar and almond powder. However, making the perfect sweet is not an easy task. Macaron lamp follows the same idea; combining simple materials with the right proportions, in order to get a lamp with personality. Wood conveys us warmth and strength. Along with the cord which links between the two pieces of wood, giving a touch of originality with its texture and color. It happens quite the same when it comes to the Macaron with different flavors combining perfectly in it. After two unbelievably successful years in the market for the pendant lamps, Silvia and EMKO agreed the Floor lamp will surely fit in.

My Writing Desk by etc.etc.

While developing the idea of the My writing desk (MWD), designer Inesa Malafej had a clear goal – to reduce the chaotic clutter that creative work brings to the table. The result is a desk which has its storage space organized around the table-top, where the objects are always in sight and easily accessible. This enlarges the desktop beyond its edges without the worry that things might fall down. Furthermore, any unnecessary objects can simply be pushed to the sides, for storage. The high edges of the desk isolate it in the room and create a positive microclimate where things “feel good” in relationship to the user. The wings are divided, leaving space for the electrical wires. MWD features two drawers, to store a laptop and other working tools. The legs of the table can be twisted off for easier transportation. For smaller, cozier spaces, a one drawer version was created.

MWD is Inesa’s graduation project from the Vilnius Academy of Arts.
