Minnesota may be known for snow and cold, but it is also the land of 10,000 lakes. The summers are warm and gorgeous, especially near a popular lake area in north-central Minnesota known as Nisswa. We named the Nisswa Collection in the spirit of the cabin life experienced there.

### Tessellate Planters

The many planter options of Tessellate can help to define a space, add unique lines, and of course, a pop of color. Designed by Ive Haugeland, founder and Landscape Architect at Marin County based Shades of Green, Tessellate arrangements make a design statement. With Ive's passion for beautiful design, she created a modular and expandable planter system. This collection features four styles of varying heights and widths, giving you the creative license to play with shape and color and create your very own geometric pattern or Tessellate.
