## Special Care

Daily cleaning may be done with regular vacuuming or by beating the rug. If the rug is stained, it's often easier to rinse it with a garden hose than using a brush to avoid rubbing the stain in further between the fibers.

## Remarks

Placing the rug in direct sunlight will alter its appearance over time.

All of our rugs are certified under Global Recycled Standard, the worlds leading certification standard for recycled textiles including both ecological and social criteria. This means that our production is continuously controlled by an external partner to ensure good conditions for both people and the environment from start to finish.
