outdoor furniture
for the modern
lollygagger

Loll is furniture for the modern lollygagger.

At our headquarters in Northern Minnesota, we manufacture original premium products proudly crafted by 70 genuine humans. Quality is built into every product including material choices, design, manufacturing, an authentic warranty, and unparalleled customer service.

Guided by a vision to inspire people to appreciate the outdoors, we coalesce to make innovative and functional products that are beautifully crafted in the USA and distributed worldwide.

product features:

- Recycled & Recyclable from reclaimed HDPE plastic milk jugs.
- Easy-to-clean, non-porous surfaces that will not harbor dirt or mold.
- Maintenance free.
- Weatherproof! We only use high grade materials that can be left outdoors year-round.
- Loll's unique, hidden fastening system allows component parts to be removed and replaced if damaged or vandalized.
- Withstands seaside and poolside environments.
- Cradle to Cradle Certified™ products
- Made in the USA.

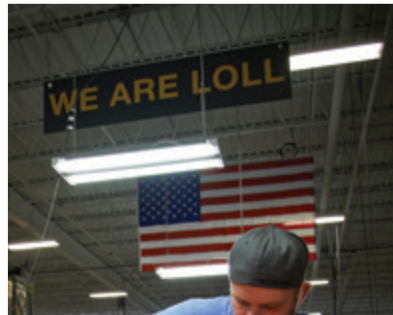

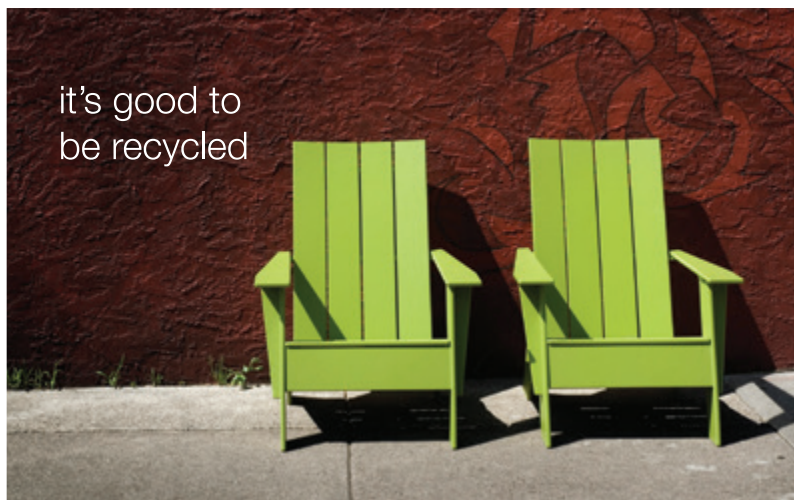

What does it mean to be a sustainable manufacturing company?

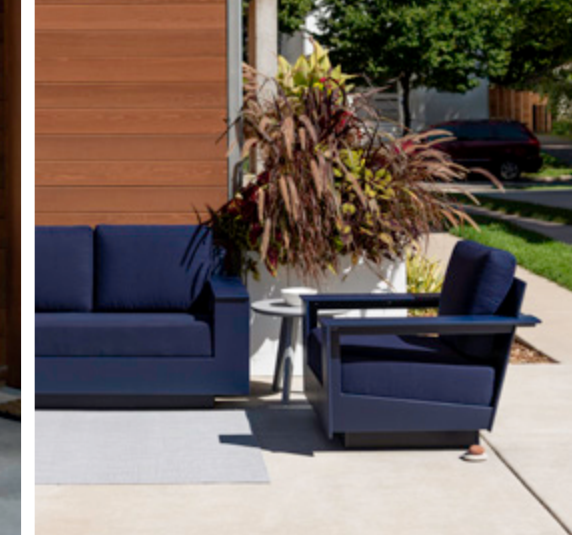

Our mission statement:

Loll Designs uses thoughtful original designs and unique materials to create innovative, fun and high quality products proudly crafted in the USA. We enhance people, planet and company in everything we do. Loll is outdoor furniture for the Modern Lollygagger.

When Loll first started prototyping an outdoor chair in 2003, her parent company was municipal skate park manufacturer TrueRide. When a skate park was produced there was always leftover material that was too small to be used for the large public use skate parks. Original Loll chairs were produced from these scraps of 5/8-inch thick high-density polyethylene. This thick HDPE sheet is made entirely with reclaimed milk jugs and is ideally suited for skate ramps and as it turns out, outdoor furniture too. After nearly 500 skate park projects TrueRide was sold in 2007. The Loll brand continued to build on this durable skate-proof material that was proven to required no maintenance and would hold up in all weather conditions.

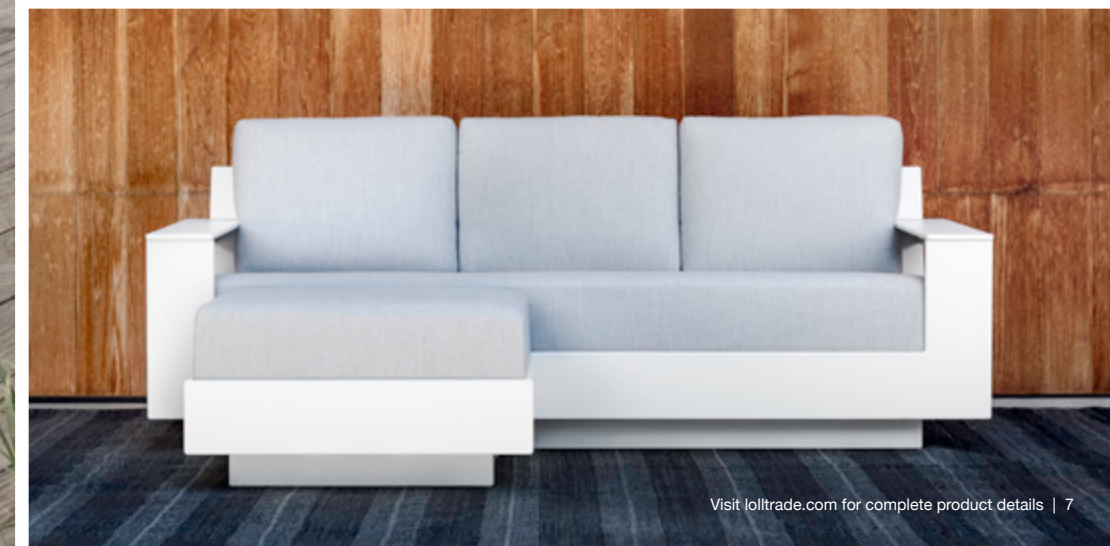

Sustainable manufacturing is at the core of who we are as a company. During the production process, we generate waste, but more than 88 percent of the waste from Loll's manufacturing process is sent to a local recycling plant where it is recycled again. The remainder is incinerated to make electricity. Being a part of the circular economy is of utmost importance us which is why we also created a material reutilization program. To ensure products don't end up in the landfill, customers send products or parts back to us so they can be properly recycled and turned into another useful product. Additionally at our production facility we redirect the heat that is generated from our CNC machines to keep our buildings warm during the winter months. To verify these sustainable efforts and have product traceability, we attained a Cradle to Cradle® certificate for our outdoor furniture products.

nisswa collection

The Nisswa Collection was designed in the spirit of screen porches on hot summer nights and shady decks overlooking sky blue lakes. Wide arms and thick cushions are perfect for a gathering with friends and family or alone with a blanket and a book. Made with a 100% recycled plastic frame and super durable Sunbrella fabric on the cushions.

security options

L Bracket Mounts

Loll "L" bracket security mounts are an integrated permanent mounting option. This add-on system includes pre-drilling of insert holes as well as the actual hardware. It may be used on all HD (Heavy Duty) Collection products and the Alfresco Collection.

Note: not all Loll products are compatible with L brackets. View Loll's complete HD line at www.lolltrade.com or connect with a Loll representative for clarification.

Cable Mount System

Loll can work with you to provide holes in legs or some of our products to attach a security cable. This is a great option for light-duty securing of furniture, especially when you want to be able to have some movement of the piece.

Note: Loll does not provide actual cable. We recommend nylon or vinyl coated "aircraft" cable in a 1/4" diameter. This material is available at most hardware stores.

loltrade.com

Loll Designs offers trade and contract programs for qualified professionals, including interior designers, architects and developers. We created loltrade.com as a comprehensive resource for our very extensive product offering, ranging from site furnishings to dining pieces and includes multiple Adirondack and lounge-style chairs.

At loltrade.com you will find...

- most up to date list of products available
- downloadable cut sheets
- downloadable 3D DWG + Revit files
- photos of featured commercial projects
- request color samples & fabric swatches
- list of sales reps in your area
