The Collection 2025

Our planet is under pressure. By now, this is clear to all of us. That makes it fundamentally important to create new material flows, where waste is turned into recyclable and responsible materials. Form & Refine was born with sustainability in our DNA the ambition of creating furniture and objects in natural materials that are sourced responsibly and designed for durability.

With our new 2025 products, we take responsibility one step further by introducing Pack Wall Design Board from the Swedish company Recoma: a fully recyclable material made from household cartons in a mix of cardboard, plastic and aluminium. In addition to reducing CO2 emissions, this material has the same load-bearing capacity and functionality as wood. This makes an obvious addition to our collection. In the new Remake Stool, which is made from Recoma's Pack Wall Design Board, material and aesthetic are two sides of the same coin. The stool tells a material story and is a product of a time when waste is transformed into new material flows.

Another new material in 2025 is Bosnian pine. This pine variety stands out with a natural, warm glow and a raw edge that make it a perfect match for the minimalist, Scandinavian expression of our furniture. Pine trees are fast-growing and help forests maintain a better balance. Because pine is a soft wood, pine furniture develops traces of lived life sooner, but that is just part of its charm. Today, we only use FSC®-certified wood along with ceramics, glass and textiles from small companies that care for their local environment.

Remake Stool

Remake Stool is made from recycled beverage cartons in a special process that allows for a mix of materials, such as paper, plastic and aluminium, which can be recycled again and again. The material is a low-carbon, fully circular and excellent alternative to traditional furniture materials and thus a sustainable choice.

Price and details on page 19

Beam Collection

Our new Beam collection is made in Bosnian pine. Beam Bench, Beam Wall Shelf and Beam Office Shelf are three new interior objects with a practical, self-explanatory and versatile functionality. The Beam series highlights the contrast between rugged joints and rounded corners in light-coloured, welcoming pine, with every piece appearing confident and robust in a simple design.

Price and details on page 22

Trefoil Folding Wall Table

A small oval wall table with a clever folding option for a tight space. The long slender oak frame and the solid oak supports hold the wooden wall table in place, creating an apparent contradiction of lightness and substantiality.

Price and details on page 18

Taper Shelf Line, 25 x 70

The new Taper Shelf is a delicate shallow yet spacious wall-mounted shelving unit that offers convenient storage in the kitchen, bathroom, office, hallway or living room. The angle brackets on the back ensure good stability and preserve the open expression.

Price and details on page 22

Smoked Oak Editions

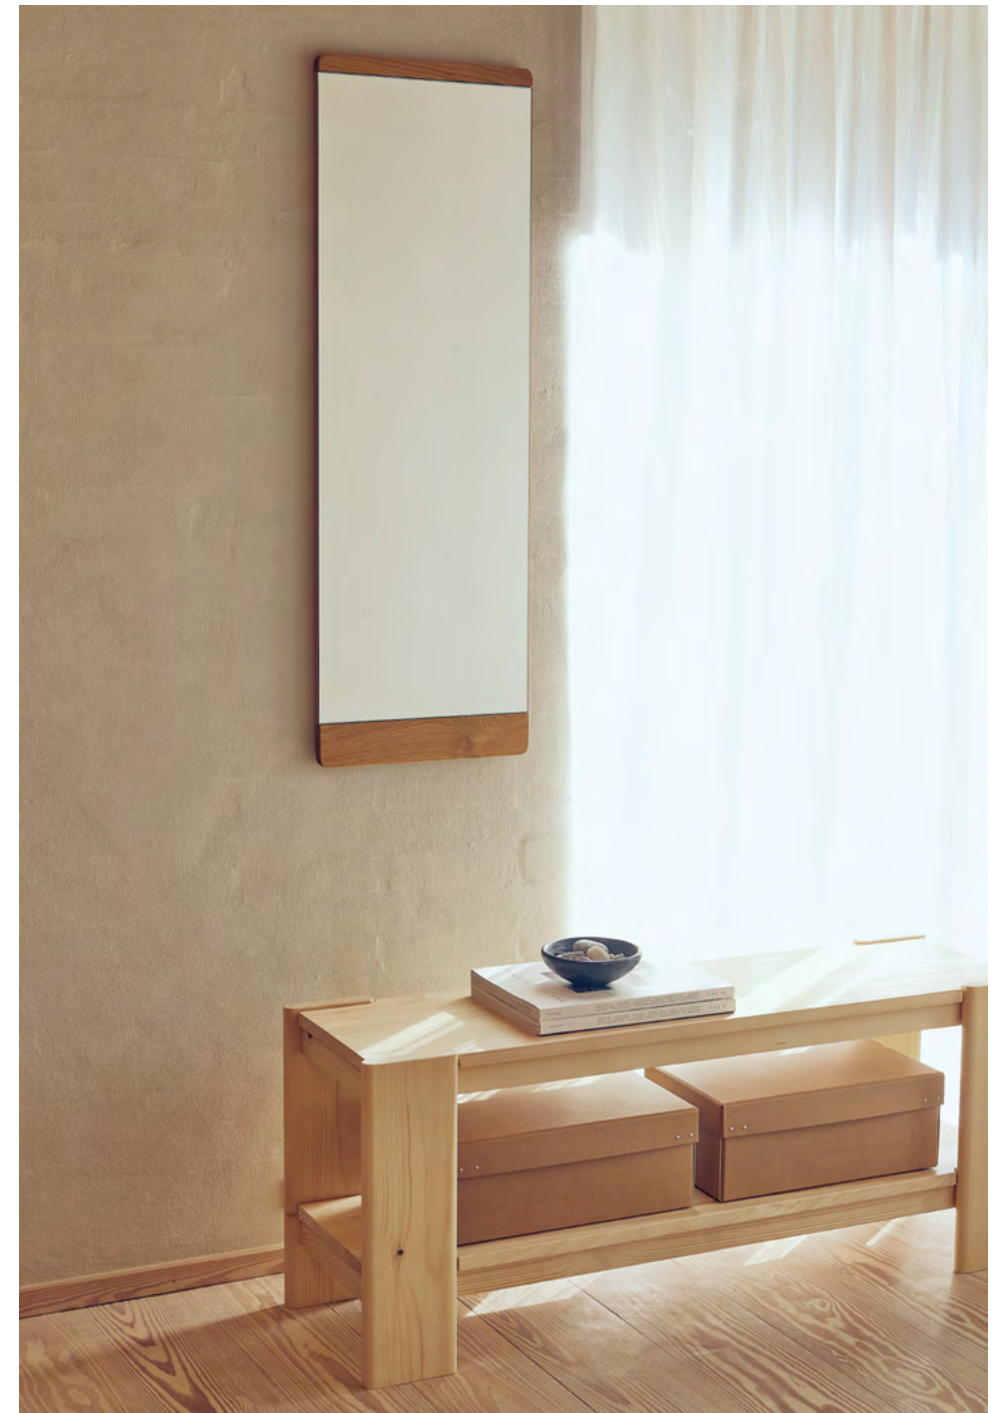

Two of our most popular items, Blueprint Chair and Trefoil Round Table Ø75, 3 legs, are now available in smoked oak.

Price and details for Blueprint Chair, Smoked Oak on page 15

Price and details for Trefoil Round Table Ø75, 3 legs, Smoked Oak on page 18

Rim Collection

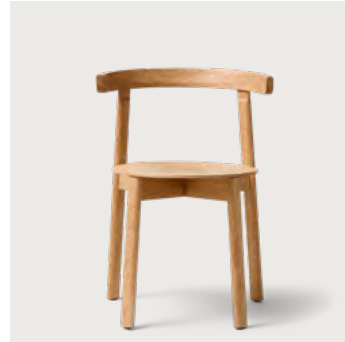

Two new and larger sizes have been added to the Rim collection, Rim Pinboard, 60 x 145 and Rim Mirror, 35 x 110

Form & Refine is a Danish design brand that celebrates materials, form and sustainability equally. Our pure materials are carefully selected from around the world and skillfully crafted locally using time-honored traditions. We see design as an artistic expression but equally as a functional object that never compromises on quality.
