Fabric Capri, the Italian spirit in your terrace!

Capri is a pastel-colored fabric that is suitable for both outdoor and indoor use. Air-permeable, breathable and water-repellent upholstery tapestry is woven of two different colors that give it the touch of summer freshness. A bean bag made of Capri fabric is a great choice for those who are looking for stylish outdoor furniture for terraces or balconies. This tapestry meets the ecological standard OEKO-TEX® 100, so it is completely safe to use, is free of harmful substances and allergens. Due to the special composition of tapestry tapestry, no mold develops on the fabric. This high quality, practical upholstery can be machine washed at 30°C without damaging the fabric.
